ISAIAH NOEL PULIDO SALAZAR

SOFTWARE & WEB DEVELOPER

Biñan City, Laguna, Philippines | +63 981 598 1464 | isaiahnoelsalazar474@gmail.com | https://github.com/isaiahnoelpulidosalazar

EDUCATION

Bachelor of Science in Information Technology (BSIT), Cum Laude **2022 - 2026**

STI College Santa Rosa *Santa Rosa, Laguna*

PROJECTS

Autolandia Sales and Revenue Report Generation System **2024 - 2025**

Lead Programmer

- Developed a full-stack automated sales tracking and commission management system using C#, Python, and SQLite, eliminating manual data entry error and ensuring 100% calculation accuracy

ECStyleSheet **2026**

Developer labs.inpsstudio.com/ecstylesheet/

- Architected a lightweight JavaScript client-side styling engine that injects dynamic CSS rules on the fly, eliminating external stylesheet dependencies and extra HTTP requests

Kashflow **2026**

Developer labs.inpsstudio.com/kashflow/

- Designed a full-featured personal finance and budgeting web application built with React, TypeScript to track dynamic cash flows, set spending guardrails, and monitor real-time monthly category health

CERTIFICATIONS & LICENSES

- Microsoft Certified: Azure AI Fundamentals (AI-901) | Microsoft, 2026
- Web Development (HTML, CSS, JS Essentials) – Cisco Networking Academy (DICT-ITU DTC), 2026

- 1st Runner-Up, STI Tagisan ng Talino Codefest 2022–23 (Cluster Level) – STI College Dasmariñas | 2023
- Champion, STI Tagisan ng Talino Codefest 2022–23 (Local Level) – STI College Santa Rosa | 2023

EXPERIENCE

Freelance **Aug 2026 - Present**

Web Developer

- Developed and delivered custom websites (PHP, Wordpress, HTML/CSS/JS) and native Android apps (Java), managing full-stack project lifecycles from client briefs to final deployment

IT Support Intern **Feb 2026 - May 2026**

Fastock Warehousing Inc. *Santa Rosa, Laguna*

- Designed and built a prototype PHP/MySQL web application to automate OJT attendance tracking, implementing user authentication and daily log features that successfully validated manual entry reduction during internal testing
